

YoungMedScholars: Website Planning Guide

Mission Statement:

YoungMedscholars is a student led initiative committed to providing high school students with a passion for Pre-med and Science fields with free, accessible resources to help them succeed. Our platform unites students, teens, and aspiring professionals with opportunities to grow and explore their interest in medicine. By offering free internships, courses, and certificates of achievement, we hope to create a community that benefit the future leaders in the medical and sciences field.

Opportunities. Benefits. Internships

Being a member of Youngmedscholars has a lot of benefits, including receiving letters of recommendation, free internship offers, and certifications, which all look impressive to colleges and medical schools. You will learn about science, medicine and leadership. Applications for executive board positions are also available, to all qualifying students around the world. YoungMedScholar proudly accepts members from 15+ countries.
